

## Year 12: A Level Art & Design Summer work

Sign up to Pinterest and start a board of your favourite Artists.

Visit an exhibition:

When you are at the exhibition, document what you see in the following ways:

- Take photographs
- Make sketches of what you see
- Make notes – what do you like about the artwork/photography work? What do you think it is about?

We are interested to hear your thoughts and feelings about the exhibitions you see so don't just copy the labels!

**Keep a small journal (A5) and sketch everyday objects, collage pages with images, document places you have visited, basically anything you find interesting. Do this in any media of your choice. This will build on your observational sketching skills.**

**Please bring in your journal in September to share what you have created.**

**Have a lovely summer!**
