**PLEASE NOTE:** Grades are lower this year than in the past three years because of a return to 'normal' following the pandemic and making the distribution of grades similar to 2019. However, direct comparisons between this year's grades and those in 2019 should be done with caution because of the disproportionate impact of the pandemic and subsequent cost-of-living crisis on young people from disadvantaged backgrounds. It is likely that the outcomes for many of these young people will be affected by these factors and this may also impact on the results of schools which serve disadvantaged communities.
