

Teacher of Design and Technology

Job Description

1. Develop and deliver engaging lessons in design technology subjects such as product design, graphics, food preparation & nutrition, and textiles.
2. Promote safety protocols and best practices in the workshop and food classroom.
3. Encourage creativity and independent problem-solving in design projects.
4. Participate in parent-teacher meetings and provide regular updates on student progress.
5. Contribute to the development of the design technology curriculum and resources.
6. Stay updated on current trends and technologies in the field and incorporate them into the curriculum.

Person Specification

1. Qualified Teacher Status (QTS) or equivalent.
2. Strong knowledge of design technology subjects and related software/tools.
3. Effective classroom management skills.
4. Excellent communication and interpersonal abilities.
5. Commitment to the ethos and values of Swakeleys School for Girls
6. A passion for nurturing students' creativity and problem-solving skills.
